This Condition Index Report (CIR) was developed to provide the client with an overall assessment of the condition of the vessel at time of inspection. It is based on a 1 to 10 indicator and it is illustrated as follows:

Range	Indication
1-2	Below Average
3-4	Marginally Average
5-6	Average
7-8	Good
9-10	Very Good

Where an item is not applicable, NA will be applied.

DISCLAIMER

The following report is provided strictly as a service to Multihull Company clients, either buyers or sellers, and is not to be used as a "proof of condition" report, and is not to be substituted for a marine survey. The primary purpose of this report is twofold:

1. It is to aid TMC yacht brokers who are in discussions with sellers listing a multihull for sale to assist them in setting their asking price appropriately based on their yacht's current condition, in advance of survey.
2. To aid buyers who may be some distance away from a TMC listed yacht to ascertain her general overall condition so they might be able to place an offer, pending personal inspection and survey, in advance of spending considerable sums to personally inspect the boat themselves.
3. It is assumed that a licensed surveyor will uncover some invisible defects in a more rigorous survey.
4. It is understood that this report does include a testing of the engines, generator, or any electrical components, and that a deeper survey may reveal that some or many components are not operating properly, or at all.
5. The Multihull Company is not a principal in the sale of this yacht and is acting solely in their capacity as a yacht broker, and offers no warranty of any kind that the information above is all factually correct, or that others who inspect this report will not disagree with the findings or the 1 to 10 ratings given by the inspector.
6. This report may not be used for the purposes of securing a loan or insurance on a yacht.
